With yarn held doubled throughout: 18 stitches*27 rows square in stockinette stitch (worked flat) with yarn held doubled.

Size

The tiger is 18 inches tall.

Printing

The intarsia in the round pattern requires pages 1 to 5 and 7, charts are provided on pages 8 and 9 for the body intarsia.

The flat intarsia pattern requires pages 1 to 3 and 6 to 7, the charts on pages 8 and 9 **do not** align with these written instructions.

The sample was constructed using intarsia in the round.

Important!

This pattern is offered for free and has therefore not been tech edited, if you find any errors please email me at browneyedbabsknits@gmail.com so that I can fix it.

Every pattern and tutorial I have for sale has been professionally edited.

Notes & links

The Tiger is knit entirely with the yarn held doubled. This achieves a firm gauge which stops the stuffing showing through. If you choose to use a single strand of yarn the cheeks will not look as fluffy

I recommend using the **Turkish cast-on** throughout this pattern, if you are unfamiliar with it I have a tutorial on my blog here: <http://www.browneyedbabsknits.com/turkish-cast-on-on-one-circular-needle.html> After the cast-on, it is often easier to work in the round with more needles, these can be added in at any stage.

Wrap and Turn (W&T) is used for shaping. There is an excellent tutorial here: <http://www.purlbee.com/short-row-tutorial/> I recommend that you work the wraps as the tutorial describes.

The body is worked in **intarsia in the round**. I have published a detailed— 9 page! — photo tutorial to describe how I do it. The tutorial is available to buy for \$2.99 here: <http://www.browneyedbabsknits.com/intarsia-in-the-round-phone-cozy.html>

I use Techknitter's travelling **jogless stripes** method to keep the stripes even. <http://techknitting.blogspot.com/2007/01/jogless-stripes.html> The start of the round will travel by one stitch at each color change. If you are using a marker at the start of the round remember to move it after slipping the stitch

I have suggested using **KTWICE** and **PTWICE** as increases; each strand of the increase stitch is worked individually to create an almost invisible increase. If you knit this in a single strand, the lifted increase will give the best results.

Make Loop (ML) is used to make the fluffy cheeks:

K1, but do not drop stitch from the left needle. Bring yarn between needles to front of work. Holding left thumb in front of work, wrap yarn once around thumb to create a loop.

Bring yarn between needles to back of work, and knit into same stitch again, dropping stitch from left needle as usual. Bring yarn forward over right needle, then between the needles to back of work, creating a loop around right needle. Pass the two stitches just worked over this loop.

There is a video of how to do this stitch about halfway down this page: <http://www.knittinghelp.com/videos/advanced-techniques>

Hands and Arms (make two)

Stuff the arms as you knit.

Thumb

Turkish cast on six stitches in white held doubled; two needles with three stitches on each needle.

Knit five rounds, cut the yarn and put the stitches on a stitch holder.

Hand & Arm

Turkish cast on 12 stitches in white held doubled; two needles with six stitches on each needle.

Repeat rounds 13 to 19 another 3 times (you will have 4 black stripes in total).

Put the stitches on a holder or waste yarn and cut the yarn leaving a long tail.

For each arm, arrange the stitches across two double point needles (or stitch holders) as follows: hold the arm on the table with the thumb pointing up, flatten the stitches at the top of the arm and put the top 10 stitches onto one double point needle (or stitch holder) and the other 10 onto a second needle or holder.

Feet & legs (make two)

Turkish cast on 16 stitches in white held doubled; two needles with eight stitches on each needle.

Stuff the foot.

For the first foot (this will be the tiger's left leg), keep the marker in place, put all the stitches onto two stitch holders and cut the yarn leaving a tail of about 6 inches.

For the second foot (the tiger's right leg) **do not cut the yarn** and keep the stitches on the needles with the marker in place.

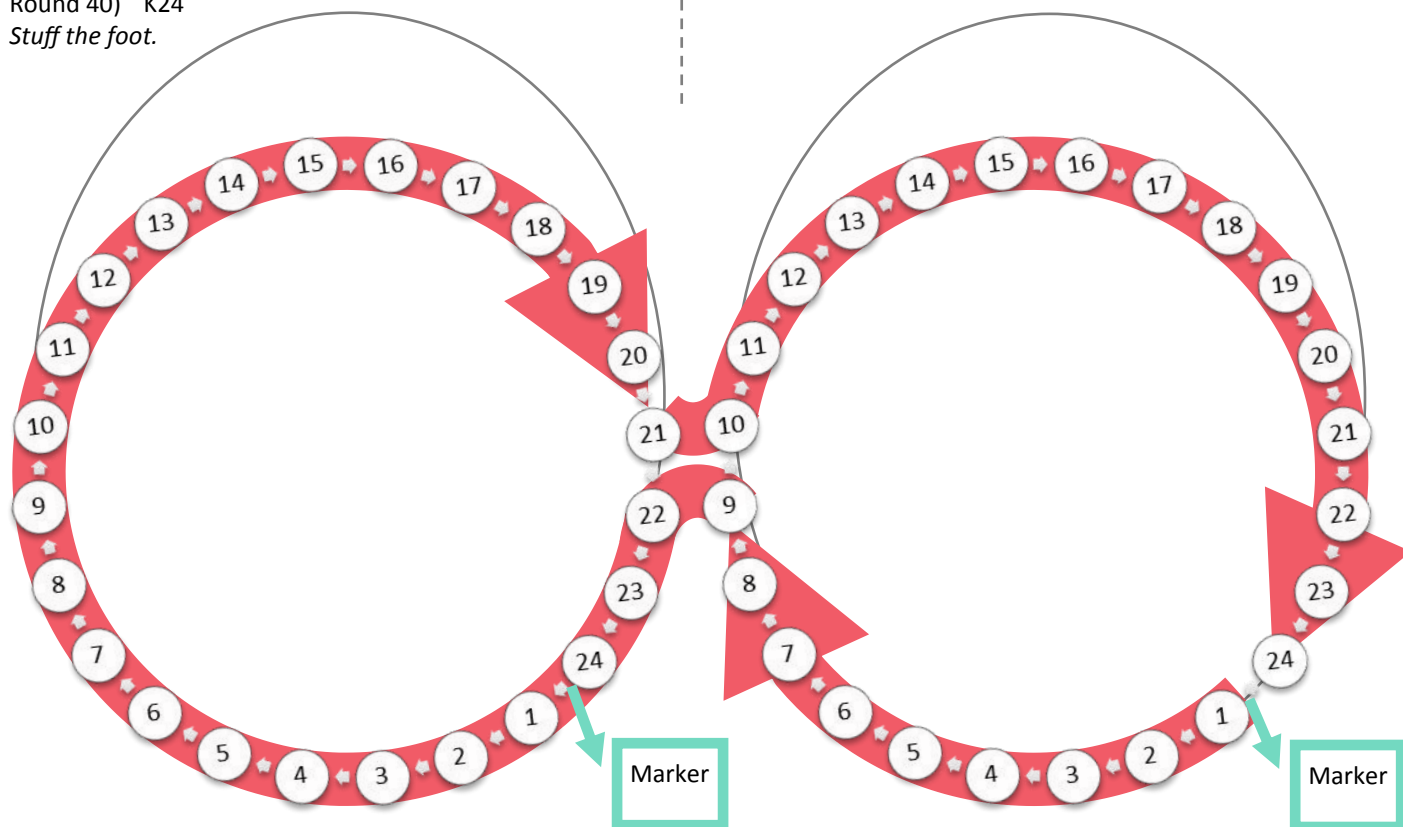

Joining the legs

Hold the second foot as the tiger's right leg.

Round 1) **In orange:** K9 (counting from the marker) from the tiger's right leg. Then go to the left leg and K3 stitches immediately preceding the marker (if you have already removed the marker these will be the last three stitches you knitted on that leg) remove this marker, then knit all of the rest of the stitches on that leg. Then go back to the first (tiger's right) leg and knit the rest of the stitches.

You can now choose to use intarsia in the round (page 4 and 5) or flat intarsia (page 6).

Intarsia 'in the round' primer

This is technically not knitting in the round as it is necessary to turn the work and purl every other row. The end of the row will always be the left most edge of the white section (when looking at the front of the work). The two colours of yarn are twisted before working the next colour (as for normal intarsia) in order to prevent holes where the colours meet. Intarsia in the round is a special method of manipulating the yarns so that they are always in the desired location for twisting.

To work a knit row:

1. Looking at the front of the work, place the white strand of yarn (which will be at the right of the white chest section) on top of the body color yarn (at the left of the white chest section); it will wrap around the body color yarn by coming across the **front** of the body color. The white yarn will be caught behind the first body color stitch worked and will form a loop.
2. Knit the body color stitches around stopping at the right hand side of the white section.
3. Enlarge the white loop and drop the body color ball **down** through it, pick up the end of the white loop closest to your working needle and knit all of the white stitches.
4. Pull the white loop snug

To work a purl row:

1. Gently wrap the body color yarn around the white yarn by bringing it **behind** the white from right to left (looking at the front) and back over the front.
2. Turn the work and purl the stitches in white. The body color yarn will be caught behind the first purled stitch of the white and will form a loop.
3. Pull the body color yarn to make a really big loop, pull the white ball **up** through the body color loop and using the loop of yarn purl all round the body color stitches of the body.
4. Pull the body color loop snug.

Round 1) K6
Round 2) KTWICE *6 (12 sts)
Rounds 3-14) K12

Knit 5 rounds in orange then 2 in black nine times and finish with five orange rounds. Move the start of the round 1 stitch each colour change as in the jogless stripes method used in the body.

Bind off and leave a long tail for sewing the tail to the body.

Making up

- If not using intarsia, sew up the seam at the back of the tiger.
- Sew the ears onto the top of the head towards the back.
- Firmly sew the nose to the middle of the face slightly lower than the top of the fluff
- Embroider eyes and a mouth (my eyes are about 5 rows high and 2 stitches wide).
- Sew the tail on between two black stripes. (I put it between the second and third stripes)
- There will probably be a small hole between the legs and under the arms which will need a couple of stitches to close up.
- Cut the loops to make the cheeks look nice and furry.
